Subject: [EXTERNAL] Existing Utilities Request - Case #268168
Date: Thursday, March 9, 2023 11:37:22 AM

This message was sent from outside the organization. Do not open links or attachments unless you recognize the source of this email and know the content is safe.

Good morning,

My name is Alexa Schultz with Bluewater Telecommunications. We are working with Flock Safety in collaboration with the Town of West Seneca Police Department to install 12-foot Flock Safety poles with Automatic License Plate Reader cameras within the NYSDOT Right-of-Way. The poles will be installed with solar panels to power the ALPR camera, so no electrical infrastructure will be required at the pole location.

I am looking to find the existing water and sewage utilities near our project locations. These are needed for permitting purposes because NYSDOT requested that we show the utilities on the construction plans. I am not sure if you are the correct contact to reach out to for this inquiry, but I have attached the current Site Plan we have, as well as listed the coordinates of the camera locations below. If you could provide me with information regarding the existing utilities along the areas of construction, I would really appreciate it! Or if you have another process for me to get this information, please let me know. Please see below for coordinates:
