RE: Letter of Resignation

Dear Mr. Carney:

It has been an absolute pleasure working for the Authority, and assisting your tremendous office. However, regrettably, I have some personal obligations in the coming months that I would not want to hamper the organization, or all the work to be done. As such, and after consult with others, I am submitting the instant letter of resignation. I am hopeful the office would allow me time to properly prepare my outstanding files for my successor during the next two weeks, but I am of course amenable to an earlier departure date if it would at all be easier of a transition.

I sincerely thank you for the opportunity provided and consider myself fortunate having had the chance to work with you and the rest of the staff here.

Very Truly Yours,

Brittany Lee Penberthy
