Terrence D McCracken

My name is Janet Burrows. NYS resident of my life of nearly 70 years. I am requesting Jefferson County begin the task of becoming a water authority to enable clean Fourth Coast septic and wastewater along our Lake Ontario , St. Lawrence River and tributary shores. If I might be given the pdf of your incorporation and procedures for maintaining the cleanliness of your water sources.

And might there be a list of the water sources you use as well. We've Information from Onondaga County OCWA. We need to review many sources, methods and such to make good decisions. Thank You very much.
