Good afternoon,
Colliers Engineering and Design has been retained by National Grid to create a topographic survey within the area outlined Limits on the attached maps for design purposes. As part of this, I submitted an 811 for a design ticket and was advised that Erie County Water Authority may have underground infrastructure in this area.
My ticket number for this area is:
11046-000-792 The project is located in Erie, Buffalo NY.
I am requesting any mapping or records for the underground lines in this area so that we can reference for our design purposes.
Thank you so much for your assistance and have a great day!

Darlene Truluck
