Subject: cherry place

Good morning,

About 5 years ago we lost access to our road, Cherry Place in Hamburg NY, for about a month (if i am remembering correctly) for what they said was water main replacements. On Sunday one of the mains blew up and they said it was an old pipe. Now I want to know what was replaced 5 years ago and what is still under the street. Please provide me with whatever information you have regarding that street

Thank you,
Caitlin Dietrick
