Claimant's Statement (please print legibly and be specific):

City Water Authority had a scheduled service call on Tuesday September 20th, 2022 to repair a broken water meter according to them. Prior to this service call initiated by them I had "never" any water leakage or floods in my basement. Without warning to me the replacement of this meter damaged my carpet (entire) in the basement due to water. I'm not exactly sure what and how the technician used to exchange this meter but it caused a significant water damage to the carpet, which had to be removed. I was advised my valve needed to be replaced (disturbance) due to this repair. Resided in this home for almost 3yr's "No water" even through the heavy rains has my basement. "Ever" had water in it. Attached I have photos
