CLAIMANT'S STATEMENT

At approximately ~3.15AM on Friday, August 14, 2020, my son found that there was no water in the bathroom. He thought he heard the sound of running water and found that the basement was beginning to flood. He woke us up. I went down to the basement, found there was about 6" inches of water at ~3.20AM and turned off the water to the house. Soon thereafter, we found that there was a rapid outflow of water into our cul-de-sac that had reached our driveway and that of our neighbors. We called 911 and all of our neighbors. A truck presumably from ECWA arrived shortly after our call. The outflow of water was stopped by 5AM. By that time, the water had risen to ~5 feet in the basement reaching the intermediate landing of the stairwell to the basement.

ECWA crew arrived and found a large water main had broken just outside our house. The break had created a large "crater" in our neighbor's driveway. The main was fixed by mid-afternoon. The Town of Amherst Engineering and Mark's Plumbing removed water by about 6 PM. Power and gas were disconnected at the request of the Town of Amherst Engineering crew.

We moved to hotel and housed our pets in a kennel. There was no electric or gas in the house until August 21, 2020.

The water damage to the basement was complete as there was ~5 feet of water. The basement, which was unfinished, had four areas, that were used as: i) Office space, ii) Laundry area with elliptical exercise machine, iii) Storage area, iv) Furnace, water heater and shop area for tools and a weight machine.

Claimed Items:

Hotel for family, Aug 14-Aug 21. Expedia, Home2Suites:	\$763.52
Kennel for two dogs, Aug 14-Aug 21. Amherst Kennel:	\$441.53

Murali,

Here is a cost of your basement remodel based on our conversation. I know there will be possible adjustments to be made, but here is a ball park cost.

Scope of work:

Install 4 ' insulation blanket on whole perimeter of basement.

Insulate proposed office walls from ceiling to floor.

Remove boxes built in office area to enlarge and square room.

Drywall finish and paint walls and ceiling in office, stair well and landing area at bottom of stairs. Also wall between laundry room and utility room.

Box and drywall beam at entry to office.

Build work bench in shop /utility area.

Build storage shelves in storage area to right of stairs.

Build storage shelves/cabinets and counter top in laundry area.

Install vinyl snap lock flooring in office and stair well landing at base of stairs.

AT THIS TIME I HAVE NO COST FOR REFURBISHING YOUR STAIRS. We need further discussion.(I may be able to do this with the flooring we will use in basement.)

Total cost for work I have out lined above is \$15000.00

Thanks

ANCHEER Magnetic Elliptical Exercise Machine for Home Use, Quiet & Smooth, Compact Elliptical Cross Trainer Machine for Indoor Workout & Fitness with 10-Level Resistance, Wheels, Digital Monitor

Brand: ANCHEER

8 ratings

Price: \$399.99 & FREE Shipping

Get a \$100 Amazon.com Gift Card upon approval for the Amazon Business American Express Card. Terms apply.

Color: Black

- **Quiet & Smooth:** Equipped with an advanced magnetic brake system and belt drive mechanism, the 35lb front mounted flywheel effectively simulates cycling and provides you with a smooth full body workout. The elliptical machine itself runs quietly, meaning you won't disturb others in the household.
- **Sturdy & Stable:** ANCHEER elliptical trainer is made of sturdy steel frame with the capacity weight of 330 lbs. The large textured foot pedals ensure maximum comfort and stability, and four anti slip suckers prevent shaking or rocking on uneven surfaces, making this cardio workout equipment suitable for both carpets and hardwood floors.
- **Adjustable Resistance:** Switch between the 10 levels magnetic resistance to adjust the intensity to make your workout more challenging and effective. Levels 1 to 3 give the sensation of walking, while at levels 8 to 10 it's a real mountain climbing experience! The ergonomically designed soft handlebars offer you a variety of hand positions.
- **Multi Function Display:** The console displays real time workout information, such as time, distance, speed, heart rate, and calories burned. The pulse sensors on the handlebars monitor your heart rate, while the console display can also be used as a tablet holder.
- **Portable and Compact:** This fitness machine takes up less than 7.8 square feet, meaning it can easily fit into small rooms like dormitories. Wheels allow you to move it around effortlessly. All our elliptical exercise machines are quality assured and we offer full product protection for a whole year, as well as life time friendly service.
