Claimant's Statement (please be specific):

On June 3rd contractors for Eric Co. Water (716 Site Contracting Inc.) were in our driveway digging to replace the water line going to our home. After they replaced the line they filled in the hole and later brought a roller to roll the driveway down. While doing this they came up with the roller at least 30' past our water meter which crushed our water line (as you can see in the photo). We talked (my wife & I) to the owner of 716... and he said unless we could produce a photo of his roller in our driveway he wouldn't accept any responsibility. He also said his machinery never came in our driveway. My wife and I saw this happen and I also have a neighbor from across the street who saw it happen.

We tried to talk to the owner of 716... twice and both times he denied even being in our driveway.

The leak became so bad by evening we had to have the water shut off and were left with having no water for 3-3 1/2 days. This was extremely difficult, until the plumber repaired the P line on 6/10/2021 at a cost of \$3420.

Enclosed are 2 photos and a bill from the plumber.
