YOUNG, JEFFREY
SHERIFF OF ERIE COUNTY
1000 STATE STREET
BUFFALO, NY 14203
(716) 852-2000

Claimant's Statement (please print legibly and be specific):

At approximately 10:30 AM on the morning of June 10, 2025 my wife looked out the window of the house and noticed a large volume of water flowing from the area of the shoulder of the road and carrying pavement down the driveway into the garage. It appeared that this had been going on for sometime at that point. While the garage doors were closed, the volume of the water was such that the water in the garage was already past my wife's legs. She called me at work via video chat to inform me of this happening and I immediately reached out to ECUA to notify them of the issue. My wife removed some of the more valuable items from the water, but at that time anything on the floor of the garage or low shelves was already submerged. She was able to measure the water to be over 8 inches in the garage at this point and was still gushing out at full force. The ECUA employees arrived and could be seen working at the corner of 204 and Beauview and then drove down to the corner of 204 and the road, but the water still wasn't shut off. At about 11 AM, the representative from the Gas company arrived to make the gas line that didn't appear to be impacted by the event and noticed my wife not going into the garage because of the electricity. The ECUA representatives could then be seen further down past Beauview working. At what we believe was approximately 11:30 AM, the water finally appeared to be shut off. I arrived at the house a little while later and there was an ECUA representative still on talking to my wife. He provided the contact information and indicated that he had taken some pictures to supplement what we had taken. ECUA didn't have the correct resources to remove the water from the garage, so we had to use our personal resources to pump the water out of the garage so we could start sorting through our possessions. The water reached over 12" and everything within that area was soaked and muddy. Later that afternoon, a new fire hydrant and road work at that location made some of the debris and mud from the view but we have had the managers responsible for the leaking ourselves were left with a mud-covered garage floor and water damaged and for muddy items that need to be cleaned and/or replaced.

All statements herein are made under penalty of perjury.
