Hello,

I am the home owner of 20 Saybrook Dr, Lancaster, NY 14086.

I live in a HOA Managed patio home community.

My home has been experiencing Water Issues for the past 4 years that causes the Sump Pump to discharge every 5-6 minutes. My neighbor's Sump Pump discharges at an alarming rate of every minute After builder (Marrano) had installed several dams around my home.

I am attempting to retrieve a report regarding the Leak Detection Unit being called upon to test the Water Main for leaks.

The HOA Management (Harmon Homes) reported no leak by ECWA without providing any additional information.

Please provide a copy of any reports that were produced regarding this Leak Detection, instruments used for leak detection, etc.

Respectfully,
Margaret Dombrowski
