Claimant's Statement (please print legibly and be specific):

The water line broke located on Ranson Road just south of Broadway late June of 2022. After the repair, our water was turned back on later that day. When we opened our faucets, large amounts of air, mud & rust came out of all of our faucets for several minutes. Later that day, my wife and I noticed very high pressure, it would spike to around 100 PSI. I had to let our water run slowly to keep the pressure down until our plumber got here. He had to replace the pressure adjustment valve & it fixed the problem. It was damaged from all the air & debris passing through it.

Thank You

P.S. I spoke with Andrea Poole regarding this matter 716 849-8413
