Hello Terrence,

My name is Lucas Horigan and I am currently building an economic model to predict water pricing in the United States. I am a resident of Erie county and wanted to understand how the county makes decisions on pricing water (i.e how did the county decide to set rates at 3.99/CCF in 2019, 4.19/CCF in 2020)

If you could give any documents on archives of bids, prices paid, auctions, pricing modelling, etc or anything related to how the county sets the rate on water I would greatly appreciate it.

I plan on attending the April 20th meeting and hope to see you there.

Thank you,
Lucas Horigan
