Claimant's Statement (please print legibly and be specific):

Water main broke in the neighbor street causing Water Authority to shut off water to make repairs. When water was turned on everything was OK except NO water pressure in hot water faucet in the bathroom sink. I called Water Authority and man was to my house and checked water pressure and everything was OK except bathroom hot water in sink. He told me to have plumber to check it out. Plumber found small screw in the line that was causing the stoppage.
