Claimant's Statement (please be specific):

ON October 17th 2020 at approximately 10:00am while riding my 2008 Buell XB2R Motorcycle, slid on loose gravel left in the roadway resulting in a motorcycle accident. Damaging the motorcycles left side and internal engine/transmission components. Minor personal injuries resulted.

ON this morning, I and Solo Rider Matthew Strassen, was leaving home at [redacted] Sloan NY 14212, heading South to Reiman street to turn East (Left). I continued east till the corner of Reiman street and Crocker street at the light in front of St. Andrews Roman Catholic Church. From a complete stop I made a right hand turn and than an immediate left hand turn from Crocker street on to Franklin street. At this corner of Crocker street and Franklin street is where I encountered loose gravel left in the road way from the construction there. As a result of the loose gravel my tires were unable to maintain contact with the pavement as they should, causing the accident. My motorcycle and I went sliding across the graveled pavement over the south side curb and on to the lawn. My approximate speed at the time of the accident was no more than 10-15 miles per hour. There were no posted road signs indicating loose gravel or construction.
