Hello, Hope this finds you well. I'd like to ask for copies of Authority records relating to the purchase of water meters and metering equipment. I have reviewed the Authority's published bid opportunities and results, both open and closed, and I did not find a solicitation for water meters, metering endpoints or meter reading equipment, although I did find published tabulations for treatment chemicals, watermain materials, meter couplings, storage tanks and lead service work. I am therefore asking how meters are bought rather than naming a bid number. For the period January 1, 2024 to the present, I am requesting: a. the contract or contracts under which the Authority purchases water meters, meter registers and meter interface or radio transmitting units, including the executed contract and its current price schedule with unit prices by meter size and model; b. if any of those purchases followed a competitive solicitation, the full bid tabulation showing every bidder and every bid amount, and each bidder's itemized price proposal or schedule of values; c. the award document, meaning the award resolution or notice of award, for each such contract; and d. if meters are instead bought under a New York State Office of General Services centralized contract, a cooperative purchasing agreement or informal quotations, identification of that mechanism and the current price schedule or most recent quotations. My understanding is that these are public under the Freedom of Information Law, Article 6 of the Public Officers Law, though I'm glad to file this however you prefer. Electronic delivery is preferred, in whatever format you already hold, PDF or spreadsheet, either as email attachments or a download link. If reproduction fees come to more than ten dollars or so, could you send me an estimate first? I will confirm right away. Appreciate your time, thank you. Adit Mittal Proxi (650) 397-0065
