Dear Sirs,

Please provide documentation regarding the ECWA inspection at the above residences on or around June 15, 2026.

The report should document the effects of a reported backup sump pump failure and the subsequent excess water leakage.

Documentation should include the nature or cause of the leakage, any finding of insufficient sewer connection, and any other information discovered by the Erie County Water Authority inspection, including plumbing infrastructure deemed not up to code.

Thank you for your attention to this matter.

Charles Weber
25 Greenbrier Road
Snyder, New York 14226
