Subject: Request for Proposals  
Distribution Main Design Projects 2022-2023  
(Contracts A, B, C, D, and E)  
ECWA Project No. 202200003

---

The Erie County Water Authority (Authority) recently issued a Request for Proposals (RFP) to eleven consulting engineering firms for engineering services for design and construction phase services for several distribution main projects in various locations within the ECWA direct service area. The RFP was also posted to the Authority website. These projects are separated into five different contracts (Contracts A, B, C, D, and E). Of the original firms, ten chose to submit proposals (DuBois & King, Inc. was the only one that did not respond). In addition, four other firms (Clark Patterson Lee, EI Team, Watts Architecture and Engineering, and Michael Baker International) submitted proposals based on Authority's website. Those submitting proposals are listed in alphabetical order below:

- Barton & Logiudice (submitted for A, B, C, D, E,)
- CHA Consulting, Inc. (submitted for A, B, C, D, E)
- Clark Patterson Lee (submitted for B, C, D, E)
- DiDonato Assoc. Eng. and Architecture, PE, PC (submitted for A, B, C, D, E)
- EI Team (submitted for A, B, C, D, E)
- Erdman Anthony & Associates, Inc. (submitted for A, B, C, D, E)
- Greenman-Pedersen, Inc. (submitted for A, B, C, D, E)
- JM Davidson (submitted for C, D)
- LaBella Associates (submitted for A, B, C, D, E)
- Michael Baker International (submitted for A, B, C, D, E)
- Nussbaumer & Clarke, Inc. (submitted for A, B, C, D, E)
- Watts Architecture & Engineering (submitted for A, B, C, D, E)
- Wendel (submitted for A, B, C, D, E)
- Wm. Schutt & Associates (submitted for A, B, C, D, E)

The proposals were reviewed and discussed among the engineering staff. Experience, staffing, scope, and project approach were considered. It was determined that each firm possessed relevant qualifications to perform the work proposed.

The Comprehensive Strategic Plan (CSP) was also taken into consideration during the selection process. The CSP establishes a 15 mile per year replacement goal for transmission and distribution mains. As shown on the table below, these contracts encompass just under 12.5 miles of that goal. In order to achieve this goal, the Authority will have to continue to utilize a variety of consultants to ensure we can consistently design and construct projects in a timely manner.

Based on the review and evaluation of the proposals, projects were assigned based on the qualifications, experience and level of effort proposed by each firm:

<b>Consultant</b>	<b>Contract</b>	<b>Description</b>	<b>2022 Budget Item</b>
Barton & Longuidice, DPC	A	15,550 linear feet of new distribution waterline on multiple streets in the Town of Amherst and Cheektowaga	Unit 2590 Item 101670
DiDonato Associates, Engineering and Architecture, PC	B	10,650 linear feet of new distribution waterline on multiple streets in the Town of Clarence.	Unit 2590 Item 101671
Wm. Schutt & Associates	C	11,000 linear feet of new distribution waterline on one street in the Town of Clarence.	Unit 2590 Item 101672
LaBella Associates	D	13,450 linear feet of new distribution waterline on multiple streets in the City of Tonawanda.	Unit 2590 Item 101673
Watts Architecture & Engineering	E	15,220 linear feet of new distribution waterline on multiple streets in the Town of Hamburg.	Unit 2590 Item 101674

Each firm provided a thorough and detailed project understanding and technical approach for the various projects. In addition, their projected level of effort (manhours, and fees) is competitive and reasonable for the work being proposed. All of the selected firms have a depth of knowledge and experience with Authority standards, design procedures, construction standards and procedures, and technical specifications. Furthermore, they have experienced staff to provide the construction phase services and construction oversight required by the Authority. Our staff review also considered overall performance of professional services for these firms with respect to experience with Authority projects.

In order to expedite these projects, the Engineering Department will be requesting approval of the individual Professional Services Agreements with each firm listed above also at the February 10<sup>th</sup> meeting.

### STATE FINANCE LAW REQUIREMENTS

The Erie County Water Authority (the “Authority”) is a government entity, as that term is defined in State Finance Law §§ 139-j(1)(a) and 139-k(1)(a). When the Authority seeks to procure goods or services by means of an Invitation or Notice to Bid, or a Request for Proposals, the State Finance Law imposes certain restrictions on anyone who may wish to offer goods or services to the Authority as an Offerer, as that term is defined in §§ 139-j(1)(h) and 139-k(1)(h).

During the Restricted Period, as defined in §§ 139-j(1)(f) and 139-k(1)(f), when bids or proposals are being solicited, the Authority will designate a contact person with whom the Offerer may contact for information and other authorized purposes as set forth in §139-j of the State Finance Law. The designated contact is identified in the Notice to Bidders, or in the Request for Proposal. An Offerer is authorized to contact the Authority’s designated contact for such purposes as set forth in § 139-j(3).

Pursuant to the State Finance Law, the Authority is also required to make certain findings before making any determinations as to the qualifications and eligibility of those seeking a procurement contract, as that term is defined in State Finance Law §§ 139-j(1)(g) and 139-k(1)(g). Certain findings of non-responsibility can result in rejection for contract award and in the event of two findings of non-responsibility occurring within a 4-year period, the Offerer will be debarred from obtaining procurement contracts with the Authority. Further information about these requirements can be found in §§139-j and 139-k of the New York State Finance Law and the Erie County Water Authority’s Procurement Disclosure Policy.

The following forms will be used by the Authority to make such findings:

Form A - Offerer’s Affirmation of Understanding of, and Agreement to Comply with, the Authority’s Permissible Contact Requirements During the Restricted Period.

Form B - Offerer’s Certification of Compliance with State Finance Law.

Form C - Offerer’s Disclosure of Prior Non-Responsibility Determinations.

**FORM C****Offerer's Disclosure of Prior  
Non-Responsibility Determinations****Background:**

The Erie County Water Authority (the "Authority") is a government entity, as that term is defined in State Finance Law §§ 139-j(1)(a) and 139-k(1)(a). New York State Finance Law §139-k(2) obligates the Authority to obtain specific information regarding prior non-responsibility determinations with respect to State Finance Law §139-j. In accordance with State Finance Law §139-k, an Offerer must be asked to disclose whether there has been a finding of non-responsibility made within the previous four (4) years by any Governmental Entity due to: (a) a violation of State Finance Law §139-j; or (b) the intentional provision of false or incomplete information to a Government Entity.

The terms "Offerer" and "Governmental Entity" are defined in State Finance Law §§139-j(1) and §139-k(1). These sections also set forth detailed requirements about the restrictions on contacts during the procurement process. A violation of State Finance Law §139-j includes, but is not limited to, an impermissible contact during the restricted period (for example, contacting a person or entity other than the designated contact person, when such contact does not fall within one of the exemptions).

As part of its responsibility determination, State Finance Law §139-k(3) mandates consideration of whether an Offerer fails to timely disclose accurate or complete information regarding the above non-responsibility determination. In accordance with law, no Procurement Contract shall be awarded to any Offerer that fails to timely disclose accurate or complete information under this section, unless a finding is made that the award of the Procurement Contract to the Offerer is necessary to protect public property or public health safety, and the Offerer is the only source capable of supplying the required Article of Procurement, as that term is defined in State Finance Law §§ 139-j(1)(b) and 139-k(1)(b), within the necessary timeframe. See State Finance Law §139-j(10)(b) and §139-k(3).

**Instructions:**

The Authority must include a disclosure request regarding prior non-responsibility determinations in accordance with State Finance Law §139-k in its solicitation of proposals or bid documents or specifications or contract documents, as applicable, for procurement contracts. The attached form is to be completed and submitted by the individual or entity seeking to enter into a Procurement Contract. It shall be submitted to the Authority conducting the Governmental Procurement no later than when the Offerer submits its proposal.
